

PREPARED FOR ZALMEN · DEE FITNESS

Your site stays. Everything behind it gets better.

An end-to-end operating system for Dee Fitness — scheduling, payments, programs, progress, and a polished public site — running quietly behind the brand you've already built.

Above: the same public profile, rendered live for a demo studio. Yours would carry your photography, your colors, and your domain.

Hi Zalmen — I built this for trainers who already have the brand and the clients, and just need the back of house to keep up. Take a look. If anything inside is useful, the next step is fifteen minutes on a screen share.

THE OPPORTUNITY

dee-fitness.com today, and what sits behind it tomorrow.

Your site already does the hard part — it tells your story, shows your work, and brings clients in. What it doesn't do — what no marketing site can do alone — is run the day-to-day business behind it. That's where Trainer Pro comes in.

Your domain stays. Your brand stays. Your clients stay. The mess underneath all of it goes away.

Front of house

A public profile that visitors convert from — hero, about, package list, gallery, testimonials, contact block — all served from the content you already have. No CMS, no drag-builders, no ongoing maintenance.

One click later

Click **Book now** and the same look continues into a real-time slot picker tied to your calendar. Intake form. Stripe checkout. Done in ninety seconds — without leaving the brand.

Above: the booking page on a demo studio, with the same brand band as the marketing site. The package picker, intake form, and Stripe handoff all live in this single flow.

Booking

Slots, intake, and payment in one flow

A client picks Tuesday at 9 AM, fills the PAR-Q, signs the waiver, and pays — all from your site, all before you read your email.

Payments

Stripe Checkout, package balances bumped

Sells single sessions or 5/10-packs. The session count auto-decrements when you mark a session complete. Refunds handled by the same hook.

Your brand

Same domain, same look, no rebuild

We can either run on a fresh /p/dee-fitness page or sit behind dee-fitness.com directly. You don't need to touch the site you have.

RUN THE DAY

Calendar, clients, payments — one place.

Once a session is on the books, the rest of your day flows from a single back office. No spreadsheet. No DM thread. No scrambling for whose package ran out last week.

DRAG-DROP WEEK VIEW

Color-coded by status. 6 AM through midnight. Drag a session to reschedule, click an empty cell to book. Filter chips show how the week breaks down.

EVERY CLIENT ON ONE PAGE

Status, package balance, and tags at a glance. The yellow banner pre-warns when packs run low.

Per-client view: sessions completed, balance, payment history, intake link, portal invite, workouts.

TRAIN THE WORK

Programs, in-session logging, progress over time.

The training side of Trainer Pro is built around how a session actually runs — from the program you wrote on Sunday to the rep you log on Tuesday to the chart your client sees on Friday.

PLAN BUILDER + 50-EXERCISE LIBRARY

Templates and assigned plans live side by side. Drop in exercises from the library, set sets/ reps/ rest, save once, reuse forever. Plans show up in the client's portal too.

WHAT CHANGES

dee-fitness.com today vs. with Trainer Pro behind it.

	dee-fitness.com today	+ Trainer Pro
Booking	Email or DM	Slot picker → intake → Stripe in one flow
Onboarding	Manual back-and-forth	Auto-sent intake link, PAR-Q, e-signature
Payments	Cash, e-Transfer, Venmo	Stripe Checkout, auto-recorded, package math handled
Programs	Google Docs, paper	Drag-drop builder, 50+ exercises, in-session logger
Progress	Memory + photos on phone	Charts per metric, before/after gallery, PRs
Client view	Ask Dee	Branded portal — schedule, balance, history, reschedule
Adding staff	Build a new system	Studio mode — each trainer their own clients, one owner view

WHAT IT COSTS

\$30 /
month

Everything on this page — booking, payments, plans, progress, public profile, client portal. No long-term contract. Pause or cancel any time. Stripe processing fees pass through at the standard 2.9% + 30¢. Studio mode included — same price for up to three trainers.

NEXT STEP

Zalmen — fifteen minutes, live demo, your domain, your branding.

If you don't walk away thinking "this would save me five hours a week," we go separate ways. Either way you'll have seen what's possible. Reply to the email I sent or text me directly — I'll send a demo URL the same day.
